"EXHIBIT M."

REPORT

OF THE

SECRETARY OF THE TERRITORY,

For the Two Years Ending
December 31, 1902.

REPORT.

Territory of New Mexico,
Office of the Secretary,
Santa Fe, Jan. 1st, 1903.

Hon. M. A. Otero, Governor of New Mexico, Santa Fe.

SIR:—I have the honor to submit herewith a biennial report upon the transactions in this department during the calendar years 1901 and 1902, together with an official register, certain statistical tables and some recommendations for the consideration of the incoming Legislative Assembly.

ELECTIONS.

One of the principal duties devolving upon this office as a result of the Organic Act is the preparation for our general election, and the canvass and preservation of the election returns. The scope of this responsibility was somewhat enlarged by our legislative assembly through an act requiring the secretary to canvass the vote for members of the legislature in all districts composed of more than one county and issue a certificate of election to the candidate receiving the highest number of votes. In order that the secretary may be in position to comply with this law it becomes imperative that he be officially informed in regard to the candidates nominated by the different political parties in the several districts and it is recommended that the legislature take action which will require the various county committees to forward to this office, before election day, a certified list of the nominees for the several offices.

Results of the general election held on November 4, 1902, have been tabulated in three different forms; one indicates the vote cast by counties for Delegate to the 58th Congress; the second is a compilation of the vote by counties and districts for Members of the 35th Legislative Assembly, while

the third is a direct transcript from the certified returns, giving the vote in detail by precincts and counties for all officials.

CORPORATIONS.

The greatest volume of business transacted in any one portion of this department arises from the filing of corporation charters. The two years just closed have shown a very material and encouraging increase in this respect both as to the number of incorporations and the filing fees collected for the Territorial Treasury.

During 1899 and 1900 there were formed 207 companies having an aggregate authorized capitalization of $139,543,500, or an average of $675,000 for each company. The fees collected for the territory amounted to $11,325.25. During the years 1901 and 1902 there were filed 386 charters authorizing an aggregate capitalization of $230,343,925, or an average of about $600,000 for each company. The filing fees in these years reached a total of $21,969.25, an increase of nearly 100 per cent. over those for the two preceding years. These statistics are detailed more fully in the tables presenting figures relating to corporations.

Our corporation law as a whole is liberal and invites outside capital to incorporate here for the purpose of doing business in New Mexico as well as in other states and in the Republic of Mexico. One of the features that is especially attractive is the fact that corporations pay no annual or franchise tax in this Territory, and, if the provisions of our law were more fully understood, we might expect a large increase in the number of incorporations. There are, however, some features of the law which need correction. The act prescribing filing fees, passed in 1899, is difficult to explain to prospective incorporators and is at once unbusinesslike and unjust in its classifications. For instance, a company organized for mining purposes with $1,000,000 capital pays a filing fee of $70.00; the same capital organized for the purpose of irrigating lands must pay a filing fee of $110.00, while if a like amount of capital is to be invested in manufacturing or industrial pursuits, the filing fee amounts to $406.00. Such an arrangement throws upon this office an unfair burden, as the

secretary is obliged to draw the line between the different of companies, thus subjecting himself to complaints on the one hand and the liability of accusation of discrimination on the other. It is recommended that action be taken to pass a law that shall be uniform in its requirements and one that may be simple enough to be explanatory upon its face.

Further than this, we are greatly in need of a law that will permit the consolidation of companies engaged in the same or similar lines of business, such an act being in force here regarding railways, while in nearly all of the states such a law may be found covering business companies in general.

The present law regulating the admission of foreign corporations might well be amended by striking out that clause requiring such corporations to file with their articles a certified copy of the general corporation law of the state in which they originate. Our statute prescribes that such corporations shall have no other or greater powers in this Territory than those granted to domestic corporations of a like class, hence, it seems useless to insist upon any evidence of the original legal status of a foreign corporation, further than that furnished by a duly authenticated copy of the charter or articles of incorporation.

The Act of 1899 relating to building and loan associations is of such a nature as to forbid the entrance into New Mexico of foreign associations except under conditions that are financially prohibitory. While this law may operate to the advantage of some of our local organizations, it appears to be very doubtful if any benefit is derived from the arrangement by our people as a whole. It would seem to be advisable that the law be amended in such a way as to place upon the foreign associations no more onerous restrictions than apply to domestic associations of a similar character.

Information received from general sources indicates that many so called corporations, foreign and domestic, are doing business in this Territory without having filed articles of incorporation as required by law. In each instance where the information has been sufficiently specific, steps have been taken to urge immediate compliance with our statutes, and usually with successful results. It might be well, however, to provide for the collection of a fine from the individuals

who officer a company that fails or refuses to comply with the law.

The last Legislative Assembly passed an act requiring all new corporations, domestic or foreign, to publish a certified copy of their articles of incorporation in the county in which the principal office is located. Such an act appears to serve no useful purpose; in fact, the requirement throws upon new corporations a rather needless burden of expense, and in many instances has been the cause of sending prospective incorporators into other jurisdictions. If, however, such an act is to remain in force, the present law should be amended so as to specify the number of insertions which shall be made of the advertisement.

This office receives several inquiries each month in reference to the registration of trade-names, trade-marks and labels, but there is no statute in force providing for such registration. Some legal provision is needed on this subject as it bears a close affiliation to corporation business.

BANKS AND BANKING.

A steady and gratifying increase is perceptible in our banking resources and the statements will be found to compare favorably with those of country banks in any other portion of the trans-Mississippi region. An abstract of reports of the 14 National and 12 Territorial Banks doing business in New Mexico in July, 1902, will found appended, from which it will be observed that our banks have an aggregate capital of $1,313,450; surplus and profits of $384,685.74; deposits in the sum of $7,455,530.08, and resources of $9,677,165.82.

The banking laws of the territory are excellent as a whole but are susceptible of great improvement in a few details. The features needing revision are the regulations in reference to statements, examinations, and unlawful banking. Under the acts in force, ordinary banks of discount report to territorial treasurer, while savings banks and trusts companies report to this office. For the sake of maintaining uniformity all of these reports are filed with the secretary, but it would be well to have the law provide for uniform action. The savings bank Act provides for an examination of such institutions by the secretary or one of his appointees, the ex-

pense of examination (limited to $100 per year) to be borne by the bank. This provision is not acted upon for the reason that it makes a discrimination in favor of the bank of discount for which no examination is prescribed.

What is needed in this particular is an official in the nature of travelling auditor, to whom, in addition to his regular duties, should be given the power to examine all Territorial banks at least twice each year, and the further power of calling for statements from such institutions at least four times each year. Such call should require a report of the condition of the bank at the close of business on any past day specified, and an exhibition in full detail of the resources and liabilities of the association.

It is manifestly unfair that an institution which has complied with all the requirements of the banking law and which pays the high rate of taxation resulting from an exhibition of resources in a sworn statement should be obliged to compete with individuals, firms or corporations who do a banking business without any legal authority.

The provisions of the statute in regard to the unlawful banking should include a fixed monetary penalty for anyone found to be engaged in such business and a specific definition as follows: "Any individual, firm or corporation who shall receive money on deposit, whether on certificates, promissory notes or subject to check, shall be considered as doing a banking business, and shall be amenable to all the requirements and penalties of the law."

NOTARIES PUBLIC AND COMMISSIONERS OF DEEDS.

During 1901 and 1902 commissions were issued to 437 notaries public in the several counties. Many of these officials have not the means to purchase a full set of our statutes and so remain in ignorance of their powers, duties and legal rate of fees. The latter feature is imperfectly covered by our present law and it would seem advisable to revise the entire legislation on this subject in some concrete form which might be published and furnished to each new appointee.

The law providing for the appointment of commissioners of deeds for New Mexico in other States and Countries

should be amended in such a way as to prescribe a fixed term of office, say, for convenience, a period of 4 years.

The following commissioners are qualified at this writing:

Name.	Postoffice.	State.	Term Expires.
Charles Hall Adams	Boston	Massachusetts	March 1, 1903
J. Burke Hendry	London,	England,	May 10, "
Joseph B. Braman,	New York,	New York,	July 30, "
Abraham H. Fisher,	Baltimore	Maryland,	Aug. 16, "
Simeon W. King,	Chicago,	Illinois,	Aug. 15, "
James L. King,	San Francisco,	California,	Sep. 18, "
Alfred Mackay,	New York,	New York,	Oct. 21, "
Charles S. Bundy	Washington,	D. C.,	Nov. 4, "
Edwin F. Corey,	New York,	New York,	Nov. 20, "
Isador J. Pocher,	Do.	Do.	Dec. 11, "
Livingston W. Cleveland,	New Haven,	Conn.,	Mar. 31, 1904,
Thos. J. Hunt,	Philadelphia,	Pennsylvania,	Mar. 7, "
John S. Wurts,	Do.	Do.	May 24, "
Charles Edgar Mills,	New York,	New York,	Jan. 14, 1905.

MISCELLANEOUS MATTERS.

At the present time the so-called Spanish archives belonging to the Territorial Library are stored in the vault of this office. These official documents cover a period of time dating as far back as 1620, and are very volumnious. Being composed of loose sheets tied in packages, their care and preservation is a matter of great difficulty, and, not being indexed, everyone who has occasion to examine them is obliged to handle many of the sheets in order to find the one wanted. Such procedure will finally result in a complete destruction of the originals unless some action is taken to preserve them in proper form. In 1901 the Secretary called attention to the fact that the Librarian of Congress, at Washington, had made a request that these documents be transferred to the manuscript room of the Congressional Library. It is understood that this offer has been renewed within the last 30 days, and it would seem advisable to authorize such a transfer unless the Legislature shall see fit to make an appropriation sufficient to cover the proper translation and printing of the documents. Special attention is directed to the fact that some immediate action will be necessary in this matter for the reason that the vault belonging to this office is now overcrowded with documents properly pertaining to this department,

and unless suitable provision is made for the removal and preservation of the Spanish archives it will become necessary to transfer them to a storeroom in the basement where they will be not only inaccessible but liable to destruction.

Attention should be called to the fact that the Postoffice Department has ruled against the former custom of this office in mailing Spanish copies of the Laws and Journals of the Legislature under government frank. This will absolutely prohibit a general distribution of documents of this nature among our people at large unless the Legislature shall see fit to authorize a small appropriation to cover the postage. If possible, such an appropriation should also supply a small fund to cover the printing for gratuitous distribution of such acts and portions of acts as contain instructions governing the organization of corporations, our pure food laws and the powers and duties of notaries public.

INCREASING BUSINESS.

What with handling a portion of the election machinery, the mileage and per diem accounts of the members of the legislature, editing and distributing the laws, answering inquiries addressed to numerous commissions which do not exist in this Territory, and attending to corporation and other matters as indicated throughout this report, the business of the office has assumed an extremely vicarious form. Then, too, the volume of business is increasing constantly in each department.

It will readily be observed that the time has come when the secretary can no longer give personal attention to all of the details arising under the various subdivisions of work in his office, yet the fact that there is no legal provision for an assistant or deputy compels him to make the attempt. It is true that no deputy can be legalized for those matters pertaining to United States business except by an Act of Congress. On the other hand, the greater volume of the business originates through territorial legislation, and it would seem that our Legislative Assembly might well take action similar to that of Arizona and Oklahoma by passing a law permitting the secretary to nominate his chief clerk to be assistant or acting secretary, under suitable bond, with authority, in the

absence of the secretary, to sign all papers and certificates originating in or bearing upon territorial legislation.

Respectfully,

J. W. RAYNOLDS,
Secretary of New Mexico.
